RETAILERS PLAN FOR TRADE WEEK

ANNOUNCE COLLECTIVE SALE EVENT FOR JAN. 10-17

WANT SHOE FACTORY HERE

C. of C. and Ad Club hold Joint Meeting Last Night. Plan for Securing Band Director.

Colvin B. Brown of the extension department of the Chamber of Commerce of the United States, Washington, D. C., will be in Maryville on Monday Jan 26 and will address a general meeting of the Maryville Chamber of Commerce to be held on that night.

At the weekly luncheon and meeting of the Chamber of Commerce, held last night jointly with the Maryville Ad club, the main features of the discussion and business session were plans for promoting Trade Week, January 10-17, a co-operative bargain sale week for all merchants in the city; a talk by Roy Lippman, secretary of the Nodaway county Farm Bureau; and the plan suggested by President Ira Richardson of the State Teachers college, that the instructor of applied music to be employed by the college, be encugaged as band director for the Maryville band alsou Such an instructor to have charge of band and orchestra work at the college is to be established there in the near future. The work at the college will allow sufficient time for this instructor to train and direct the city band and in this way a much higher class director could be secured than if the city employed one of their own resources only. The details of this plan should it be followed will be worked out later.

An effort will be made to have every retailer in the city arrange a special sale event for Trade Week. The usual custom of having pre-inventory and clearing sales in January will be followed by the merchants with the exception en effort will be made to have all merchant sarrange their special sale events for the week of January 10 to 17. The Maryville Ad club and Chamber of Commerce will co-operate in advertising and promoting this trade week through this section to make it one of the greatest business events of the year.

A committee composed of W. A. Miller C. C. Corwin and Fred Wolfers was appointed to look after securing a shoe factory for Maryville. A number of factories are being established by a St. Louis firm in different parts of the state and an effort will be made to have one opened here.

CORY COOK AND RALPH MARCELL TO FORM PARTNERSHIP

IS ARMY FILM DIRECTOR

Young Cook Home from 30 Months Overseas Work with Government Motion Picture Service.

Cory Cook, the son of Mr. and Mrs. Andrew Cook of St. Joseph, arrived in the city yesterday to visit his grandmother, Mrs. L. D. Cook, and the families of his uncles, L. C., Ellis and Prof T. H. Cook.

Young Cook arrived home from overseas military service on December 22 and is spending a fifteen day furlough visiting home folks after which he will be stationed at Fort Riley, Kan., or Fort Leavenworth. He is expecting his discharge papers soon.

Mr. Cook was overseas thirty months and during that time was in charge of the government motion picture service taking pictures of all operation and of the actual engagements of the American forces. He was a member of the photographic department of the signal corps and was attached to the first division. At the beginning of the American forces engagements abroad, Cook was the official photographer with General Pershing's division. He has been in continuous service with the Army of Occupation until he was sent home this month.

Mr. Cook is accompanied by his French bride, the wedding taking place in Paris last August. His wife is a movie star and her stage name is Christiane Willy. She was connected with the Gaumont Company.

As soon as Mr. Cook is discharged from the army, he intends to locate in Maryville and will be associated in business with Ralph Marcell. They intend to establish a studio of moving pictures. Before Mr. Cook went to war he was with Mr. Marcell.

GOVERNMENT WATCHING THOUSANDS OF 'REDS'

Known to be 60,000 in Country on Whom Uncle Sam is Keeping Tab.

Washington, D. C.—There are 60,000 known radicals or "reds" in this country on whom the government is keeping constant watch. The report of the Attorney General just made public, calls attention to the fact that of 395,295 index record cards, 71,000 Bertillon records and 262,712 finger print records, 60,000 represent men and women who are being kept under the constant surveillance of the Department of Justice with a view of controlling and preventing their anarchistic, Bolshevistic, and other radical activities. He reports that the Federal Government's means of running down and checking crimes has increased steadily throughout the past year.

This is the most active year the Department of Justice has had in the history of the country. With the violation of Federal statutes during the war the egal department of the government has also had to take over the hundreds of patent and other claims arising out of the war. He predicts months of burden for the department in war litigations and prosecution of draft evaders and those charged with sedition.

ODORIFEROUS ATMOSPHERE CAUSE OF GOWDY'S ARREST.

Charleston, W. Va.—Melton Gowdy, a negro, wanted for the theft of pole cat and opossum hides, couldn't escape the police. In fact, he was the most advertised man in Charleston after he landed from a train. He carried the pelts in suitcases and the odoriferous atmosphere that followed Gowdy made a mistake impossible.

HOUSE BREAKS RELATIONS WITH PRESIDENT WILSON

Split with Wilson Final, Now Associating with Other Political "Cast Offs"

New York, Dec. 30.—The American today printed the following—Colonel House has definitely broken with the President, will refuse to support President Wilson for the third term and will oppose nomination of McAdoo, Palmer or any other Democrat the President may seek to install as his successor. House is disposed at present to back Underwood instead of Hitchcock as Democratic leader of the senate. The foregoing information is vouched for by political leader of unquestioned veracity who talked with Col. House yesterday.

URGE AN EQUAL MONTH CALENDAR

END OF YEAR SEES MORE BOOSTING FOR NEW PLAN

ELIMINATES FRIDAY 13TH

No Unlucky Date in Liberty Schedule, Holidays Would Always be on Same Dates.

Its only a few days until you will have to write it 1920, and as 1920 bring a new set of dates for the various holi days of the year the American Equal Month Calendar Association of Minneapolis is renewing its claims for the Liberty calendar, by which Christmas would fall on Thursday, December 25, every year.

The year in the proposed calendar is divided into thirteen months of twenty eight days each. Monday falls on the 1st, 8th, 15th and 22 of every month; Tuesday on the 2d, 9th, 16th, and 23d; Wednesday on the 3d, 10th, 17th and 24th; Thursday on the 4th, 11th, 18th and 25th; Friday on the 5th, 12th, 19th and 26th, Saturday on the 6th, 13th, 20h and 27th, and Sunday the last of the week, on the 7th, 14th 21st and 28th.

Sabbath the Seventh Day.

Religious sects might unite on their day of worship for the Sabbath, Sunday and the seventh day of the week fall on the same day. And for the superstitious who dread Friday the 13th as a Bolshevik fears soap, there must be some relief in fact that the Libery calendar, for such is has been named, eliminates the possibility of Friday ever coming on the 13th.

Thanksgiving, by custom relegated to the last Thursday in November, must always fall on the 25th, while the 4th of July would always be Thursday. Thus the Liberty calendar simplifies the task of the bank clerk in keeping tab on holidays.

Of course, though, a system which considers thirteen months of four weeks each, can only account for 364 days. The present calendar, from which the devotees of the new scheme of time reckoning want to deviate as little as possible, bases the number of days in the year upon astronomical motion, the length of time required for the earth to revolve about the sun, or 365 days, with one additional day every four years—the 29th of February on leap year. This 365th day of the year the Liberty calendar places in no month and in no week.

New Year's Day an Orphan.

It would make of New Year's day an orphan, falling between December 28 of the old year and January 1 of the new year. It's a holiday, anyhow, the Liberty calendar sponsors say, so why take cognizance of it in a business day calendar.

And then, every four years, they would sandwich in another orphan between some two months, to take care of the twenty four hours which February mothers on leap year under the Gregorian system. And, as a day needs a name, the same as anybody else, they would call this one "Correction day," and would make of it another legal holiday. As once every hundred years leap year is ommitted, unless the number of the year is divisible by four hundred "Correction day" would have the same fate.

The present names of the months would be retained, with the addition of "Liberty" month, falling between February and March. They do not propose the universal adoption of the new system before 1922, when New Year's day is on Sunday and the new Liberty year might being the next day as Monday, January 1.

MEMBERSHIP DRIVE FARM BUREAU JAN. 5

INTENSIVE CAMPAIGN WILL CONTINUE THROUGH WEEK

15 SOLICITORS AT WORK

C. H. Gray and P. H. Ross will Hold Preliminary Meeting Saturday Afternoon to Boost Work.

Chester H. Gray, president of the Missouri Farm Bureau association, and P. H. Ross, county agent leader, of Columbia, will be in Maryville Saturday to hold a meeting preliminary to the house-to-house canvass to be conducted next week for members of the Nodaway County Farm Bureau.

Fifteen solicitors, one for each township, have been chosen by Mr. Gray to conduct the drive. These solicitors are farmers from other counties and together with the members of the executive committee of the county farm bureau expect to visit every farm home in the county during that week. These solicitors together with the executive committee will meet with Mr. Gray and Mr. Ross Saturday for the purpose of holding a school of instruction for this drive.

Mr. Ross, in a letter to Roy Lippman secretary of the farm bureau here, had the following to say:

"I sincerely believe that Nodaway's success maens a very great deal to the success of the big movement in Missouri and we certainly cannot do too much to help the thing alon. I think you men there are so well prepared for the proposition that only the very worst kind of weather can prevent a very successful 2000 membership result."

GROUP PLAN OF SERVING HOT LUNCH TO PUPILS

Patrons of Scudder District Give all Necessary Equipment, Miss Bessie Dinsmore Teacher.

The Scudder school five miles south of Maryville is another school which has adopted the plan of serving hot lunches at the noon hour.

In forming the Hot Lunch Club the teacher and pupils elected officers and divided their members into three group These groups take turns at the cooking, housekeeping and bookkeeping phases of the work. The aim is to make the meals both economical and nutritious. The pupils thus get excellent practical drill in arithmetic and physiology as well as in cooking and serving.

From a small sum a week each pupil receives a hot lunch. The patrons are highly pleased with the plan and have bought and donated all the necessary equipment.

Various improvements have recently been made at the school. Equipment for manual training has been purchased and the pupils are doing some excellent work in this line.

It is expected that the school will soon be placed on the list of approved school of the county, Mis Bessie Dinsmore of this city is the teacher. This is the first year that vitalized agriculture has been taught in the school and the teacher is conducting the work with success.

MAIN PUMP ARRIVES FOR WATER PLANT

TWO ELECTRICALLY DRIVEN PUMPS TO BE USED.

FILTER NEARLY COMPLETE

High Service Pump Sends Water Through City Mains, Low Service one Pumps Water into Lake.

The big electrically driven high service pump for the city water plant has arrived and unless some unfavorable circumstances make work impossible, the pump will be installed and ready to be used by the last of the week.

E. E. Harper of Kansas City, consulting engineer for the plant, will arrive in Maryville tonight to superintend the work of getting the pump ready for operations.

There are two electrically driven pumps one low service power for pumping the water in the storage lake and another high service one for pumping the water through the up town mains.

The work on the filter is progressing fine and if the weather remains in favor for the workmen, the greater part can be completed in another week.

The pumps at the fire station well have been installed and are ready for work when needed. These pumps furnish a hundred pounds pressure as an added protection in case of fire. They are also electrically driven machines and give re-inforcements to the pumps at the power plant furnishing the most complete protection possible to the city in case of fire.

INSPECT NEW TELEPHONE APPARATUS AT HOPKINS.

Mayor W. O. Garrett and L. E. Edwards of the People's Telephone union went to Hopkins yesterday to inspect the new switch board which has recently been installed there by the Mutual telephone company. This switch board is the newest improved kind for this line of service and it is possible the Maryville exchange will install a similar one.

Leonard M. Leech of Pickering returned Sunday night to his studies at the Chillicothe Business college after spending the holidays with his parents Mr. and Mrs. S. C. Leech of Pickering.

Mrs. J. H. Eckles and Miss Ora Eckles went to St. Joseph this morning to spend the day.

"Say It With Flowers"

For the New Year's greetings more people each year send a few flowers or a nice plant with their New Year's greetings to friends or relatives. The cost is a trifle compared with the pleasure and satisfaction that is derived from sending flowers on these occasions.

"Say it With Flowers"

The Engelmann Greenhouses

1001 South Main Street.

DURING the year just past our Nation has met many problems in the readjustment of industry and commerce so greatly unstablized during the world war.

These problems have been solved or partially solved in the big, constructive way America has of doing things, and the coming year will doubtless see the business of the country back to normal conditions under a degree of stability and prosperity hitherto unknown.

In the general industrial readjustment of the nation Nodaway County has played her part just as she played it during the great struggle, and in the increased production of food and the increased valuation of her property she has prospered in proportion as the whole nation has prospered. In the ultimate return to stability Nodaway County will find herself in a substantial and healthy industrial and financial condition.

This bank wishes to congratulate the people of Nodaaway County on the part they have played in the world's work of the past year and to wish them a year of still greater achievement and prosperity in 1920. It is with a feeling of much gratitude that the officers and employees of the Farmers Trust Company realize that they have had a part in this work and in some small degree have helped in the constructive advancement of the community. We hope to be of greater help in the development of every community interest during the coming year.

THOUSANDS FIND HOMES ON LAND FORMERLY ARID.

Washington, D. C.—Crops with an annual value of $100,000,000 are being produced on lands which a few years ago were unproductive, the Reclamation Service of the department of the Interior reports. In putting this land into use about 200,000 people have been provided with homes and agricultural tracts. About the same number have been established in cities, towns and villages affected by this development.

The Reclamation Service announces also that during the present year it is in position to deliver water to about 1,600,000 acres of irrigable land, covered by crop census, of which about 1,120,000 acres are now being irrigated. In addition to this area, about 950,000 acres are receiving water from permanent reservoirs under special contracts.
